

LOOS JOINTS

Multi-Function Utility

RRP £189

Wholesale £110

BLACK

WHITE

Loos Joints is a multi-function utility module combining a quantiser, LFO, ASR envelope, and more in a single compact unit. The kind of module that fills every gap in your patch — always useful, always in the right place at the right time. Quantise random CV to musical scales, generate LFO modulation, shape envelopes — all from one module.

FEATURES

- Quantiser with selectable musical scales
- LFO with multiple waveforms and rate control
- ASR (Attack-Sustain-Release) envelope generator
- Multiple utility functions accessible via mode switching
- CV and gate inputs throughout
- FR4 fibreglass panel
