

PERFORMER

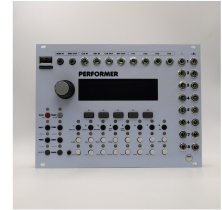

8 Track Step Sequencer

RRP £369

Wholesale £200

BLACK

WHITE

Performer is an 8-track performance sequencer built for expressive, real-time control. Program up to 8 independent tracks of gates and CV, with per-step probability, note length, and ratcheting. Complex polyrhythmic sequences, probabilistic drum patterns, evolving melodic lines — all controllable live without a laptop. Designed to be played, not just programmed.

FEATURES

- 8 independent tracks with up to 64 steps each
- Per-step probability, gate length, and ratchet controls
- Real-time record and step edit modes
- CV and gate outputs per track
- Sync to external clock or internal clock
- Compact 20HP performance-focused layout
- FR4 fibreglass panel

SPECIFICATIONS

Format	Eurorack
Width	20HP
Depth	25mm
+12V Current	100mA
-12V Current	10mA
